Subject RE: Extra Cable Mounted Roadway Lights 

Nick,

Saeed said that he was going to take care of getting CCO 167S2 approved by TBPOC so the critical-ness would be dependent on when Saeed plans to present to TBPOC.

Subject RE: Extra Cable Mounted Roadway Lights

Thanks Joe. Looks like it's not SSO critical - I'd like to prioritize it behind CCO's 190 and 206. Let me know if there's any hurry on it.

Subject Extra Cable Mounted Roadway
Lights

Steve,

As discussed, at last week's visit to Musco to observe the progress of the light poles and light fixtures, there were discussions regarding extra cable-mounted roadway light fixtures at the following 2 locations:

1. At Panel Point 80 of the east end of the e/b side of the SAS, the plan calls for only 2 light fixtures. All of the other clusters have 3 fixtures. Musco indicated that 3 light fixtures would be required to meet the lighting standards of the contract. Therefore, an additional fixture is required.
2. At the same Panel Point, on the w/b bridge, there are no fixtures.

The minimum light could probably be achieved, but there will be only 8 clusters of cable-mounted roadway light fixtures, while on the e/b side there will be 9 clusters. Clive indicated that the addition of three fixtures would create symmetry.

Upon your direction, we will proceed with this CCO.

Thanks,

Bill Shedd
Construction Senior, SAS Bay Bridge
